File handling : -

Code:

```java
package practiceproject;
import java.io.*;

public class filehandling {
    public static void main(String[] args) {
        String fileName = "New.txt";
        String contentToWrite = "This is lokesh from nellore.";
        String contentToAppend = "File content after appending.";
        try (FileWriter writer = new FileWriter(fileName)) {
        writer.write("This is the first line.\n");
        writer.write(contentToWrite);
        writer.close();
        System.out.println("Successfully read from the file.");
        }
        catch (IOException e) {
        System.out.println("An error occurred while writing to the
file.");
        e.printStackTrace();
        }
        try (BufferedReader reader = new BufferedReader(new
        FileReader(fileName))) {
        String line;
        while ((line = reader.readLine()) != null) {
        System.out.println(line);
        }
        reader.close();
        }
        catch (IOException e) {
        System.out.println("An error occurred while reading from the
file.");
        e.printStackTrace();
        }
        try (FileWriter writer = new FileWriter(fileName, true)) {
        writer.write("\n" + contentToAppend);
        writer.close();
        System.out.println("Successfully appended to the file.");
        }
        catch (IOException e) {
        System.out.println("An error occurred while appending to the
file.");
        e.printStackTrace();
        }
        }
        }
```
